

THE CURZON-60

New for 2014 the Curzon, our modern, sleek new design. Ideal for semi-detached properties with a shared drive where a twin garage is the perfect solution, or as multi garage units.

The Curzon comes with a full height concrete partion as standard, or you can have it clear with full access from either door. Available as single, twin or double, or as many side by side garages as you wish. Our new low pitch Apex roof made from low maintenance uPVC, one piece roof sheets pre-formed in the factory. These sheets go from the eaves up to the Apex and back down to the other eaves with no joint. Creating a leak free environment from day one. No need for planning permission even on a building length of 20'6". uPVC fascias and bargeboards as standard. Guttering and downpipes to the front and rear elevations available in either white, grey or black. Available as a six degree roof pitch as standard, also available as a twelve and a half degree roof pitch as an optional extra. A large range of sizes and configurations available to suit your home.

MAYFAIR GARAGES
